---------------------	---	--

PERSONAL INFORMATION	Date of Birth: 14.01.1977 Place of Birth: Lienz, Tirol (Austria) Citizenship: Austria
----------------------	---

RESEARCH INTERESTS	<b>Probability Theory &amp; Mathematical Statistics, Fractals</b>
--------------------	---

- Copulas and Dependence Modeling
- Multivariate and Nonparametric Statistics
- Fractals, Singular Functions and Iterated Function Systems
- Dynamical Systems (in discrete time)
- Markov Operators and Kernels
- Statistics with Imprecise Data

#### Applied Statistics & Data Mining

- Forecasting and Regression Techniques
- Dependence Modeling of processes
- Automatic Reporting with R and Miktex (knitR, Sweave)
- Interactive Dashboards with R-shiny, interactive graphics with plotly

SHORTLIST  
POSITIONS

- Associate professorship 'Statistics' at the University of Bozen (10/2017)
- Full professorship 'Applied Statistics' at the Technical University Graz (02/2017)

- HONORS**
- Winner of the University of Salzburg's Excellence in Teaching Award (category: best lecture); for the course 'Fractals and Chance' (05/2017)
  - Winner of the Austrian Statistical Association's prize for dissertations in Mathematical Statistics (2007)
  - Excellence Scholarship of the Vienna University of Technology (1996-1999, 2002)
- EDITORIAL WORK**
- Guest Co-editor for the DEMO Special Issue for the Salzburg workshop on Dependence Models & Copulas
  - Editorial Advisory Board member of DEMO (appointed for the period 2018-01-01 till 2019-12-31)
  - Editorial Board member of Fuzzy Sets and Systems
  - Editorial Board member of Austrian Journal of Statistics
- REFEREE**
- Applied Mathematics Letters, Austrian Journal of Statistics, Bernoulli, Chaos, Solitons & Fractals, Communications in Statistics, Computational Statistics and Data Analysis, Computers and Mathematics with Applications, Dependence Modeling, Econometrics, Electronic Journal of Statistics, Extremes, Fuzzy Sets and Systems, IEEE Transactions on Fuzzy Systems, Information Sciences, International Journal of Approximate Reasoning, International Journal of Geographical Information Science, International Journal of Uncertainty, Journal of Mathematical Analysis and Applications, Journal of Statistical Planning and Inference, Journal of the American Statistical Association, Knowledge-Based Systems, Kybernetika, Letters in Biomathematics, Mathematical Reviews, Mechanical Systems and Signal Processing, Metrika, TEST, Soft Computing, Statistics & Probability Letters
- SCIENTIFIC COMMITTEES**
- Co-Chair of the specialized team on Dependence Models and Copulas within the ERCIM Workgroup on Computational and Methodological Statistics (together with Fabrizio Durante)
  - Management committee member (rep. Austria) of the ICT COST Action IC1408 CRoNoS (Computationally-intensive methods for the robust analysis of non-standard data)
  - Chair of the Austrian Stochastic Days 2017 (as satellite meeting of the ÖMG-DMV congress 2017), September 12-13, Salzburg, Austria
  - Organizer of the session *Recent advances in dependence modelling and optimization* at the Workshop on Copulas and Their Applications celebrating the 75th birthday of Roger B. Nelsen, July 3-5, 2017, Almería, Spain
  - Co-Organizer of the sessions *Dependence models and copulas I-IV* at the CMStatistics 2016, December 09-11 2016, Seville, Spain (together with Fabrizio Durante)
  - Chair of the Salzburg Workshop on Dependence Models and Copulas, September 19-22 2016, Salzburg, Austria
  - Co-Organizer of the session *Data Analysis with Dependence Models* at the SMPS 2016, September 12-14 2016, Rome, Italy (together with Fabrizio Durante)
  - Co-Organizer of the sessions *Dependence models and copulas I-III* at the CMStatistics 2015, December 12-14 2015, London, UK (together with Fabrizio Durante)
  - Organizer of the session *Copulas* at the Österreichische Statistiktage 2015, October 21-23 2015, Vienna, Austria
  - Co-Organizer of the sessions *Dependence models and copulas: Theory* and *Dependence models and copulas: Applications* at the ERCIM 2014, December 6-8 2014, Pisa, Italy (together with Fabrizio Durante)
  - Co-Organizer of the sessions *Mathematical Aspects of Copulas I + II*, *Dependence Models in Environmental Sciences* at the ERCIM 2013, December 14-16 2013, Senate House, University of London, London, UK (together with Fabrizio Durante)
  - Organizer of the sessions *Copulas I-III* at the ERCIM 2012, December 1-3 2012, Conference Centre, Oviedo, Spain

- Co-Chair of the Fifth International Conference on Soft Methods in Probability and Statistics SMPS 2010, September 28 - October 1 2010, Oviedo/Mieres, Spain
- Organizer of the session *Statistics with fuzzy or incomplete data* at the ERCIM 2009, October 29-31 2009, Grand Resort Hotel, Limassol, Cyprus

INVITED TALKS  
(SINCE 2011)

- *Complete dependence everywhere?*, at the Workshop on Copulas and Their Applications celebrating the 75th birthday of Roger B. Nelsen, July 3-5, 2017, Almería, Spain
- *Complete dependence everywhere?*, Vienna University of Technology, May 08 2017, Vienna, Austria
- *Three copula-based optimization problems and an excursion*, at the CMStatistics 2016, December 09-11 2016, Seville, Spain
- *On sharp inequalities between Kendall's  $\tau$  and Spearman's  $\rho$* , at the CMStatistics 2015, December 12 2015, London, UK
- *Some remarks on singular components of copulas*, at the ERCIM 2014, December 06 2014, Pisa, Italy
- *Viewing copulas as special Markov kernels - some consequences*, IFAS Seminar, November 06 2014, Linz, Austria
- *Copulas from the Markov kernel perspective*, at the First Joint International Meeting of the UMI (Italian Mathematical Union), the SIMAI (Italian Society for Applied and Industrial Mathematics), the RSME (Royal Spanish Mathematical Society), SCM (Catalan Mathematical Society), and the SEMA (Spanish Society for Applied Mathematics), July 2 2014, Bilbao, Spain
- *Very singular copulas*, at the ERCIM 2013, December 14 2013, Senate House, University of London, London, UK
- *Some useful and surprising consequences of the Markov kernel perspective of two-dimensional copulas*, Österreichische Statistiktage 2013, October 24 2013, Statistik Austria, Vienna, Austria
- *Some useful and surprising consequences of the Markov kernel perspective of two-dimensional copulas*, within the Workshop Copula modeling: New challenges and techniques, September 9 2013, Technical University of Munich, Munich, Germany
- *The Markov kernel perspective of two-dimensional copulas and some useful and surprising consequences*, June 13 2013, Department of Mathematics, University of Salzburg, Salzburg, Austria
- *Copulas from the Markov kernel point of view*, at the ERCIM 2012, December 2 2012, Conference Centre, Oviedo, Spain
- *Some (smoothing and non-smoothing) properties of the star product of copulas*, at the 6th International Conference on Soft Methods in Probability and Statistics, SMPS 2012, October 6 2012, Konstanz, Germany
- *A nonparametric dependence measure for random variables based on the one-to-one correspondence between copulas and Markov operators*, at the 58th Session of the International Statistical Institute, ISI 2011, August 26 2011, Dublin, Ireland
- *The R-package SAFD for Statistical Analysis of Fuzzy Data*, at the 58th Session of the International Statistical Institute, ISI 2011, August 25 2011, Dublin, Ireland
- *A nonparametric dependence measure for random variables based on the one-to-one correspondence between copulas and Markov operators*, at the 8th International Conference on Computational Management Science, CMS 2011, April 29 2011, Neuchatel, Switzerland

**University of Salzburg**, Salzburg, Austria

*Assistant Professor/Lecturer*

since 10/2013

- (Mathematical) Statistics (Lecture and Exercise for Bachelor Students of Mathematics, 5th Semester), 4 times
- Fractals and Chance (Lecture for Bachelor/Master Students of Mathematics), 2 times
- Applied (mathematical) Statistics (Lecture and exercise for Bachelor/Master Students of Mathematics)
- (Elementary) Regression Methods & Computational Statistics (Lecture for Master Students Data Science)
- Statistics, Visualization and More Using R (Seminar/Computer Lab for Master- and PhD Students Psychology and Master Students Data Science), 3 times
- Introductory statistics for earth scientists (Lecture and exercise), 2 times
- R Introduction via Applied Statistics (Seminar/Computer Lab for PhD Students in Psychology, together with [Walter Gruber](#)), 3 times
- R for advanced users (Seminar/Computer Lab for PhD Students in Psychology, together with [Walter Gruber](#)), 2 times
- Mathematical Software R/Matlab/Mathematica (Lecture for Bachelor Students of Mathematics, together with [Lothar Banz](#) and [Andreas Schröder](#)), 2 times
- Automatic reporting with knitR (training and further education for employees of University Salzburg)
- Refresher course Applied Statistics (training and further education for employees of University Salzburg)
- Stochastic modeling (Exercise for Students of Mathematics, 4th Semester), 2 times
- Mathematics I and Mathematics II (Exercise for Students of Material Sciences)

**European Centre for Soft Computing**, Mieres, Spain

*Lecturer*

2010 - 2012

- Introduction to R (Seminar/Lecture)
- R Computer Lab

**Vienna University of Technology**, Vienna, Austria

*Teaching assistant*

1999 - 2008

- Measure and Probability Theory (Exercise), 3 times
- Applied Statistics for Mathematicians (Exercise), 3 times
- Introduction to Probability Theory and Statistics (Exercise), 3 times
- Mathematics 1-3 for Electrical Engineers (Exercise), 3 times
- Introduction to Probability Theory and Statistics for Computer Scientists (Exercise), 3 times

**University of Salzburg**, Salzburg, Austria

- Noppadon Kamnitui (Ph.D. student in Mathematics), since 11/2015
- Thomas Mroz (Ph.D. student in Mathematics), since 10/2015
- Manuela Schreyer (Ph.D. student in Mathematics), since 10/2013

**University of Salzburg**, Salzburg, Austria

- Guido Friesacher (Master student in Mathematics), *Analyzing log-returns using Copulas*, finished 10/2016
- Eva Andrea Eder (student teacher in Mathematics/Biology): *Fraktale - Von der Natur inspiriert und durch die Mathematik in die heutige Zeit integriert*, finished 05/2016

**European Centre for Soft Computing**, Mieres, Spain

- Julia Lastra: *Teoría de Cópulas - Cópulas con soporte fractal*, within the Master in Advanced Mathematics (University of Almería), finished 09/2013, together with [Enrique de Amo Artero](#)
- Héctor Fernández Martínez: *Product demand prediction*, within the Master in Soft Computing and Intelligent Data Analysis, finished 07/2010, together with [Ana Colubi](#)

SUPERVISION  
(BACHELOR)

University of Salzburg, Salzburg, Austria

- Jakob Schmollgruber, Markov Ketten und Random Walk, finished 01/2017
- Philipp Schwartenbeck, *Frequentist and Bayesian parameter estimation*, finished 12/2016
- Gianna Liehr, *Julia Mengen*, finished 11/2016
- Victoria Racher, *Eine Anwendung multipler linearer Regression und Grundzüge der Bayes Statistik auf 'Time Since Death Estimation'*, finished 09/2016
- Lukas Helminger, *Maximierung der Masse des Graphen/Endographen einer nicht fallenden Transformation innerhalb der Klasse der Copulae*, finished 08/2016
- Florian Griessenberger, *Parametrische und nichtparametrische Regression und ihre Anwendung*, finished 07/2016
- Sebastian Heintze: *Periodische Punkte und chaotische Eigenschaften von Funktionen*, finished 06/2016

SERVICE TO THE  
UNIVERSITY

- Member of the *Curricularkommission* for the Bachelor and Master degree in Mathematics
- Member of the *Curricularkommission* for the Master degree in Data Science
- Active member of the Math2School-Team
- Core faculty member of the Data Science Salzburg initiative

SOFTWARE

**R-packages:**

- **Chaos game:** Plot fractals words in dimension two and three (together with Manuela Schreyer)
- **dynRB:** Calculate niche size and overlap using dynamic range boxes (together with Manuela Schreyer, Robert R. Junker, Jonas Kuppler, Arne Bathke)

PROJECT  
EXPERIENCE (AS  
EMPLOYEE)

**NIRS Analysis**, University of Salzburg, Salzburg, Austria

*Project leader*

2017

- Analysis Near Infrared Spectroscopy (NIRS) data
- For Universitätsklinik für Anästhesiologie, perioperative Medizin und allgemeine Intensivmedizin, Salzburg, Austria

**Analysis questionnaire data Diacerin for EBS**, University of Salzburg, Salzburg, Austria

*Project leader*

2016

- Statistical testing for positive treatment effects
- For Prof. Dr. Johann Bauer/EB-Haus Austria

**Prozessdatenanalyse Walzenproduktion**, University of Salzburg, Salzburg, Austria

*Assistant project leader*

2015

- Detection of possible factors relevant for product quality
- Development of a R-shiny app to simplify data analysis for experts
- For Eisenwerk Sulzau-Werfen

**Pflegesituation in Österreich**, University of Salzburg, Salzburg, Austria

*Project leader*

2015

- Statistical analysis of the data collected by ServusTV
- For ServusTV (part of Red Bull Media House)

**SIMOP II project**, European Centre for Soft Computing, Mieres, Spain

*Project leader*

2012 - 2013

- In collaboration with Alimerka and Nortia (local Spanish companies)
- Analysis/quantification of the effect of product offers to sales numbers of related products

**SIMOP I project**, European Centre for Soft Computing, Mieres, Spain

*Project leader*

2011 - 2012

- In collaboration with Alimerka and Nortia (local Spanish companies)
- Optimization of the delivery system of an Asturian supermarket chain based on the forecasting of daily sales numbers of products during offer and non-offer periods

	<b>Cajacash-project</b> , European Centre for Soft Computing, Mieres, Spain <i>Operating project member</i>	2010
	<ul style="list-style-type: none"> <li>• In collaboration with cajastur (Asturian savings bank)</li> <li>• Forecasting daily withdrawn amounts at cash machines (ATMs) to improve the cash delivery system</li> </ul>	
	<b>MICINN-project</b> , European Centre for Soft Computing, Mieres, Spain <i>Project leader</i> (since 2011)	2010 - 2012
	<ul style="list-style-type: none"> <li>• Project of the Spanish ministry for research and innovation</li> <li>• Basic research on flexible (linear) regression models for imprecise data</li> </ul>	
CORRELATE.AT PROJECTS (INCOMPLETE LIST)	<b>Statistical Data Analysis in Medicine</b> For Landeskrankenhaus Amstetten	2016-2017
	<ul style="list-style-type: none"> <li>• Statistical data analysis concerning MAST in obese patients</li> </ul>	
	<b>Confirmed by customer</b> For T-Mobile Austria	2015
	<ul style="list-style-type: none"> <li>• Hexagonal binning and aggregation of speed measurements by customers</li> <li>• Illustration of the results</li> </ul>	
	<b>Breitbandanalyse Bundesland Salzburg (together with SBR-net Consulting AG)</b> For the regional government of Salzburg, Austria	2015
	<ul style="list-style-type: none"> <li>• Analysis of the status quo</li> <li>• Collection, cleaning and aggregation of all relevant data sources on a 100x100 meter grid</li> </ul>	
	<b>Analysis CTU Data</b> For Specure (as subcontractor in their project with Czech Telecommunication Office)	2015
	<ul style="list-style-type: none"> <li>• Plausibility checking, heavy user filtering, data aggregation and visualization</li> <li>• Implementation in R and SQL</li> </ul>	
	<b>Opening Hours Illustration</b> For Stadtgemeinde Baden, Austria	2015
	<ul style="list-style-type: none"> <li>• Analysis of the collected data and summarization of the most important findings in pretty and easy to interpret graphics</li> <li>• Publication of the results in the Baden Passion magazine</li> </ul>	
CONSULTING & FREELANCE EXPERIENCE (INCOMPLETE LIST)	<b>A1 Telekom Austria</b> , Vienna, Austria	2008 - 2012
	<ul style="list-style-type: none"> <li>• Assistance and support in the development of automated reports for ticket flows</li> <li>• Data mining radius data</li> <li>• Simulation and Backtesting Voice/mobile broadband with selectable geographical parameters, Implementation in R</li> <li>• Development of a Q-Voice sampling plan for Austria based on the geographical distribution of the population, Implementation in R</li> <li>• Data mining Scanner-data</li> <li>• Assistance and support in the development of automated mag backbone reports via Sweave</li> <li>• Assistance and support in the development of automated TEMS reports for all mag countries</li> </ul>	
	<b>Allianz Insurance Austria</b> , Vienna, Austria	2006 - 2010
	<ul style="list-style-type: none"> <li>• Development of a forecasting model for losses caused by hail based on POH grid-data from ZAMG Austria, Implementation in R</li> <li>• Geographical (meteorological) risk-zoning of Austria concerning natural hazards, Implementation in R</li> <li>• Development of a stochastic model for flood damages given right-censored historical data, Implementation in SAS and R</li> <li>• Analysis of the interrelation of empirical flood damages and the Austrian HORA project (HOchwasser Risikozonierung Austria)</li> </ul>	

## EDUCATION

**Vienna University of Technology**, Vienna, Austria

Ph.D., Mathematics, April 2006 (with distinction)

- Thesis title: *Fuzzy Probability Distributions*
- Adviser: Prof. R. Viertl

M.Sc., Mathematics, September 2001 (summa cum laude)

- Thesis title: *Iterated Function Systems and Chaos Game*
- Adviser: Prof. M. Blümlinger

## APPOINTMENTS

**University of Salzburg**, Salzburg, Austria*Assistant Professor (with qualification agreement)*

since 10/2014

- Department of Mathematics
- Basic research and teaching in the field of probability theory and statistics

**University of Salzburg**, Salzburg, Austria*Univ.Ass.*

10/2013 - 09/2014

- Department of Mathematics
- Basic research and teaching in the field of probability theory and statistics

**European Centre for Soft Computing**, Mieres, Spain*Associate Researcher*

01/2011 - 07/2013

- Research Unit for Intelligent Data Analysis
- Basic research in the field of probability theory and statistics: copulas, dependence measures and statistics with imprecise data
- Applied research in statistics/data mining: applied projects with local companies, with emphasis on forecasting problems

*Postdoc Researcher*

07/2008 - 12/2010

- Research Unit for Intelligent Data Analysis
- Basic research in the field of probability theory and statistics: copulas, dependence measures and statistics with imprecise data
- Applied research in statistics/data mining: applied projects with local companies, with emphasis on forecasting problems

**Vienna University of Technology**, Vienna, Austria*Postdoc Research Assistant*

01/2006 - 06/2008

- Institute for Statistics and Probability Theory
- Research project: Decision-making based on imprecise information, supported by the National Bank of Austria

**National Bank of Austria**, Vienna, Austria*Employee* (part-time, 28 hours/week)

02/2004 - 12/2005

- Balance of Payments Division, Department of Statistics
- Financial Statistics Quality Control

**Hutchison H3G 'Drei'**, Vienna, Austria*Employee* (part-time, 20 hours/week)

09/2003 - 01/2004

- Department for Regulatory Affairs
- Invoicing and Reporting

**University of Vienna**, Vienna, Austria*Research Assistant* (partially part-time)

11/2001 - 08/2003

- Institute for Mathematics
- Research in Ergodic Theory

LANGUAGE SKILLS Fluent in German and English  
Intermediate in Spanish  
School level in Latin
